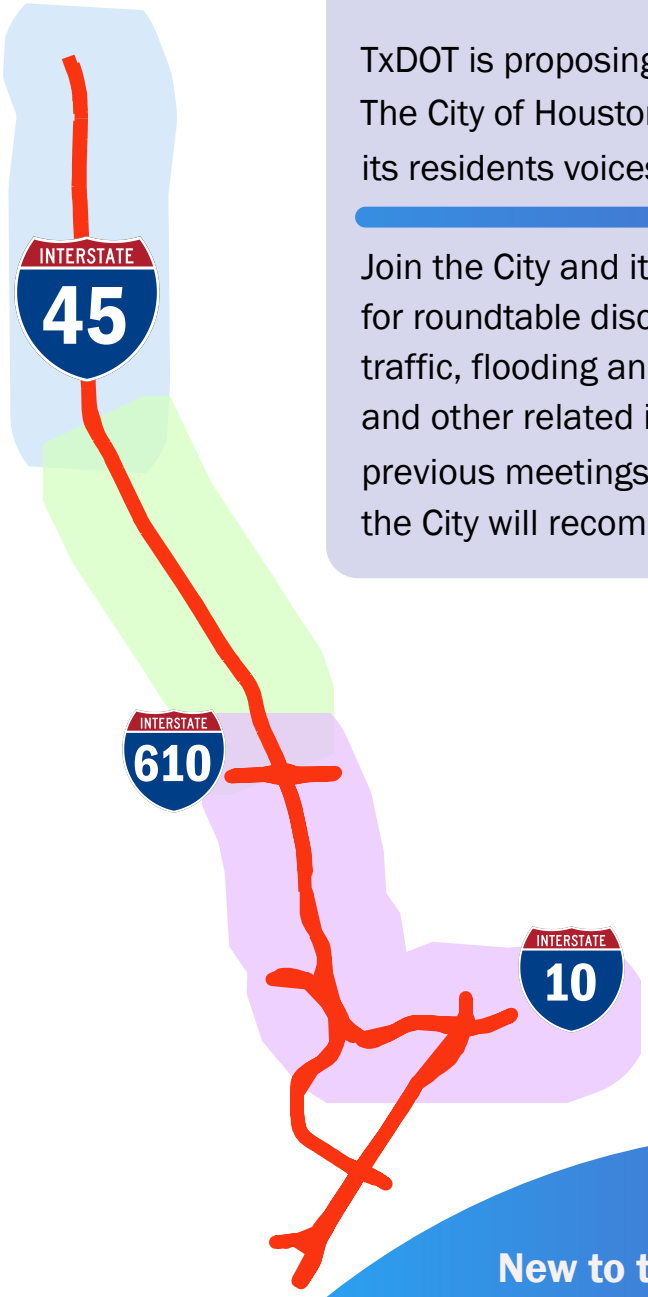
Harris County Dept. of Education
6300 Irvington Blvd.
Accessible by METRO 79



How does I-45 affect you? How would you make it better?

TxDOT is proposing a major expansion of I-45. The City of Houston wants to make sure its residents voices are heard.

Join the City and its team of experts for roundtable discussions on housing traffic, flooding and drainage, air quality and other related issues. Building on previous meetings and these discussions, the City will recommend changes to TxDOT.

New to this discussion?

Join us early for a 20 minute introduction that will explain the project.
