Release:

Release percentage is calculated using the Asilomar Accords. This is the universally accepted method of reporting shelter intakes and outcomes. You can see more information and the report at: <http://www.houstontx.gov/barc/asilomaraccords>

Rescue Movement=RPM, a nonprofit animal rescue group

works with over 150 nonprofit rescue groups. RPM is by far BARC's largest and most active partner. % Transferred to RPM = # transferred to RPM/total transfers.

RPM donates \$75 for every animal they rescue. As BARC's first and only high volume rescue partner, RPM is an integral part of BARC's live release success.

Adoptions- Does not include TNR and Community Cats

Intake number represents a total of intakes of dogs and cats. This number may vary slightly from what is reported in Asilomar.

Owner Turned In (OTC) = animals turned-in at BARC by citizens

Strays = animals that were picked-up by animal control officers

Spay/Neuter Surgeries Performed:

Healthy Pets Healthy Streets

initiative is a collaborative effort between several groups. The purpose is to address the needs of pet owners in high intake zip codes. This program provides an opportunity for pet owners to receive a free spay/neuter surgery, rabies vaccination, microchip, city license, flea/tick prevention, and education on responsible pet ownership.

Spay/Neuter Clinic is BARC's public spay/neuter clinic. BARC also offers wellness services for your pet at this clinic. Find out more here: <http://barchoustonblog.com/>

Response Time:

Animal control support are queued using a priority matrix. Priority one calls are the most critical and priority five calls are less critical.

Confiscations = The number of animals picked-up as part of a cruelty investigation

Unanswered and "Pending" calls are in a queue waiting for a response. While the call may not have been answered at the time of this report, there is an expectation of a disposition; therefore, these are included in the answered calls calculation.
