<u>Heartworm Status:</u> NEGATIVE/NAD						

Eval. Notes:

**MEDICAL PROCEDURE:** When I opened the door and the dog started to wag nub. He seems painful but allowed me to pick him up out of the car. The finder said he couldn't walk but he was easily able to hop on 3 legs. The dog allowed us to work him up easily. He did not immediately take his meds so we had to force feed them to him. I placed him in a large kennel with a huge blanket. He drank and ate food.

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
<b>A1826266</b>	<b>ALLIE</b>	<b>6/18/2022</b>	<b>DADOPT02</b>	<b>62.6</b>	<b>GI</b>	<b>21</b>
<u>Description:</u> <b>(Spayed female) 4 YRS, BLACK / WHITE, STAFFORDSHIRE MIX DOG</b>						
<u>Heartworm Status:</u> NEGATIVE						

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** Allie greets me at kennel door with a loose body and wagging tail . I am able to easily leash her. She walks very well on a loose leash. She remains quiet and relaxed in her kennel. Very treat motivated. Taking off of adopt eval due to improved behavior. 06/28/22 10:52

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
<b>A1826405</b>	<b>COWBOY</b>	<b>6/19/2022</b>	<b>DADOPT03</b>	<b>54</b>	<b>NORMAL</b>	<b>17</b>
<u>Description:</u> <b>(Intact male) 3 YRS, WHITE / BLACK, SIBERIAN HUSKY MIX DOG</b>						
<u>Heartworm Status:</u> HIGH POSITIVE						

Eval. Notes:

**BEHAVIOR NOTE:** When walking he tends to pull on the leash. When seeing another dog he gets distracted from pottying and starts to pull on the leash when seeing another dog. I tried giving him treats to redirect his focus back on to me to potty but his attention was another dog

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>

<u>Description:</u> <b>(Intact male) 6 YRS, BLACK / WHITE, GERM SHEPHERD MIX DOG</b>						
<u>Heartworm Status:</u> HIGH POSITIVE						

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** Shartz remains very quiet in his kennel. He likes to in the outside part of his kennel and lounges around. I am able to easily leash him and he walks out loosely. He walks very well on a loose leash to the courtyard. He is treat motivated and follows thge trail of treats that i toss down below for him. He even sat patiently and waited for his next treat to be given. When we were walking another dog The Cronch (A1827032) was being walked further away and he noticed him, and began wagging his tail. He layed down on the grass and just watched him as The cronch approached him. Both dog had a loose body and wagging tial and sniffed one another and walked away. He walked loosely back to kennel. Calm, quiet and relaxed.  
06/29/22 10:56

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1824552	DIEGO	6/17/2022	DADOPT09	65	HEARTWORMS	19
<u>Description:</u> (Intact male) 3 YRS, WHITE / BLACK, AMERICAN STAFF MIX DOG						
<u>Heartworm Status:</u> HIGH POSITIVE						

Eval. Notes:

**PURRFURRED**

**BEHAVIOR NOTE:** wiggly body while in kennel, does on occasion bark thru the kennel when passing by but once in front of kennel he wiggles and presents a loose body, wagging tail and soft open mouth. while going outside he on occasions does pull but is treat motivated and will follow the treats back to kennel.

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1827445	BETSY	6/26/2022	DADOPT12	30	DERMATITIS	13
<u>Description:</u> (Spayed female) 1 YRS, GRAY / WHITE, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> NAD						

Eval. Notes:

**BEHAVIOR NOTE:** Nugget is very sweet. She presents a loose body when standing in front of the kennel. Easily to leash and walks on a loose leash.

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1827551	NUGGET	6/27/2022	DADOPT13	31	INTESTINAL PAR	12
<u>Description:</u> (Intact female) 2 YRS, BROWN / WHITE, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> LOW POSITIVE						

Eval. Notes:

**PURRFURRED**

**BEHAVIOR NOTE:** Walked Jolie in PM; played with tennis ball. Jolie ran around with the ball in her mouth initially and then played fetch. Once she was tired she would bring the ball back and flop onto the ground on her side with it still in her mouth. I began walking to the gate and she walked next to me, relaxed body, tail out and swaying. I leashed and she walked on loose leash back into her kennel.

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>

<u>Description:</u> (Intact male) 3 YRS, BROWN / WHITE, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> HIGH POSITIVE						

Eval. Notes:

**BEHAVIOR NOTE:** Approaching kennel, dog stays laying on floor with wide eyes and a stiff body. He moves head back as I attempt to leash and maintains a tucked tail but then comes up to me with a low hanging tail and low head patiently waiting to be leashed. After placing leash on dog, he gently loose leash walks to the next kennel but does maintain a hyper-alertness towards his surroundings and then starts to deeply sniff his new kennel once in . 07/05/22 12:43

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1829498		7/6/2022	DB25	48.2	WOUND	3

Description: (Intact female) 3 YRS, BLACK / TAN, GERM SHEPHERD MIX DOG

Heartworm Status: NEGATIVE

**RESCUE ONLY**

Eval. Notes:

**BEHAVIOR NOTE:** Approaching kennel, dog is laying with a tucked tail and very dilated pupils with a tense face and is licking lips. After I open the door to leash dog, she stands up and starts to low growl at me while I attempt to lazo the leash on to her neck. She starts to show teeth and then lunges at me so I closed the door and called a coworker for help to move her to her new kennel. He managed to place the lazo the leash and then slowly walk her to her new kennel. 07/05/22 12:51

Description: (Intact male) 3 YRS, RED / BLACK, LABRADOR RETR / BELG MALINOIS DOG

Heartworm Status: HIGH POSITIVE

**RESCUE ONLY**

Eval. Notes:

**BEHAVIOR NOTE:** Dog was sitting in back of cage when I approached. Dog had whale eyes, tenens body, tucked tail and lip licking. I opened the kennel door slightly and crouched. Dog's body relaxed sightly and crouched walked over to me. He leaned in for pets and I placed the leash on him slowly. Once on dog started to thrash and bite at leash. I tossed in a few mixed treats but dog did not show any interest. I walked in the cage ot pet him more and encourage him to take a few steps out of the cage. Once out in the hallway, dog pancaked and had tail tucked. I walked closer to him and he started to thrash and bite at leash. I muzzled him, used towel to cover his head, and placed him in clean kennel.

<b>A1826920</b>	<b>BAMBAM</b>	<b>7/3/2022</b>	<b>DC29</b>	<b>33</b>	DERMATITIS	<b>3</b>

Description: (Intact male) 6 MTHS, WHITE, LABRADOR RETR MIX DOG

Heartworm Status: NEGATIVE

Eval. Notes:

**BEHAVIOR NOTE:** Approaching kennel, dog is sitting on the corner of his kennel looking at me with very dilated pupils and low growls when I get closer to attempt to leash him. I then grab a double leash to lazo the leash on to his neck and then he gently loose leash walked to his new kennel with a waggy tail. After being placed in his new kennel, dog then looks back at me with a hard stare again and starts to vocalize at me 07/05/22 13:10

A1827368	BRAVEHEART	6/25/2022	SOUTH04	43	OTHER	14
<u>Description:</u> (Intact male) 1 YRS, BLACK / WHITE, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> NEGATIVE						

Eval. Notes:

**BEHAVIOR NOTE:** Continues to be vocal during the day, new dog moved next to him, both are now barking and jumping on the side of the kennels. Gave him a Nyla bone and he did quiet down. Will quiet down when there is no movement in the room. Unable to keep kennel covered due to Braveheart pulling the blanket.

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1827373	MELON	6/25/2022	SOUTH11	46	DERMATITIS	14
<u>Description:</u> (Spayed female) 5 YRS, BLACK / WHITE, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> LOW POSITIVE						

Eval. Notes:

**BEHAVIOR NOTE:** Quietly lays on her bed throughout the day. Melon greets at the front of the kennel while presenting loose wiggly body, wagging tail and soft close mouth. Gently takes treats when offered and walks on a loose leash. Sweet girl.

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1827486	PETER BARKER	6/26/2022	SOUTH12	42	BEHAVIOR	13
<u>Description:</u> (Intact male) 1 YRS, BLACK / WHITE, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> NAD						

Eval. Notes:

**BEHAVIOR NOTE:** High energy when first approaching, will begin to jump and slam his body against the kennel door. BB presents wiggly body, dilated eyes and fast wagging tail. Hard to walk on leash due to BB zig zagging in different directions and not taking treats when offered.

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** Approaching kennel, dog greets me with a wagging tail, low ears, and a soft smile. After leashing her, she gently loose leash walks to the runs with a slow tail wag and then frolics inside of her run once released. After I come back for her, she starts jumping on the fenced door with a wagging tail and a relaxed mouth. She then walks with a very loose body to her kennel and gets in to take a sip of her water. 07/02/22 16:20

<u>Description:</u> (Intact female) 2 YRS, WHITE / BROWN, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> LOW POSITIVE						

Eval. Notes:

: Sitting by the kennel door looking upward at me for some attention with tail wagging. Was easy to put on a leash and walk.

Eval. Notes:

**BEHAVIOR NOTE:** today Mary was again sitting in frontof the kennel door ready to go outside. I leash Mary, walk her out while still maintaining a loose body, tail high and wagging while walking outside. After cleaning her kennel, went back outside to get her and again she was sitting at the front of the gate ready to be leash. when leashing her, she walk out of the runs, turn around to face me and I told her to sit, and she sat, gave her a treat for the command. walk back to the row and Mary walk right into her kennel to eat her treats.

<b>A1828479</b>	<b>RIPLEY</b>	<b>6/28/2022</b>	<b>SOUTHB13</b>	<b>45</b>	<b>HEARTWORMS</b>	<b>11</b>
<u>Description:</u> <b>(Intact male) 1 YRS, WHITE / BROWN, AUST SHEPHERD MIX DOG</b>						
<u>Heartworm Status:</u> LOW POSITIVE						

Eval. Notes:

**BEHAVIOR NOTE:** When I approached Ripley he was standing on his bed staring at the guillotine at the back of his kennel, occasionally barking at Dale (A1825875) on the other side. When I was at his kennel door Ripley spun around, visibly relaxed and loose wagged his tail, opened mouth, tongue lolling. Walked on semi loose leash outside to runs; was weaving around smelling ground while walking. Once he pottied Ripley was very vocal, high pitched barking, to be let inside. Once I brought him in he curled on his bed.

In the PM I took Ripley outside to take a new picture of him. Once I pulled off leash Ripley began running around the perimeter, marking around fence. He was often distracted by volunteers walking other dogs in and out of runs and would run to gate to watch them. Sniff greeted those that were inside walkway (relaxed body, alert ears, loose tail wagging) but did high pitched bark at dogs that did not pay attention to him. 7/6/22

<b>A1824388</b>	<b>LARA</b>	<b>6/14/2022</b>	<b>SOUTHB15</b>	<b>70</b>	<b>EYE</b>	<b>22</b>
<u>Description:</u> <b>(Spayed female) 3 YRS, WHITE / BRINDLE, STAFFORDSHIRE MIX DOG</b>						
<u>Heartworm Status:</u> NEGATIVE						

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** Lara is laying on bed as i approach her , she walked on a loose leash outside runs. Coming back outside she will be laying down , will take treats but will not get up. I have to lift her body in order for her to start walking again and she will pull back wanting to lay back down. Will not take treats only when she is laying down.

- volunteer had lara out and she did same thing , did not want to walk and stayed laying down eating treats.

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1827245	CRICKET	6/25/2022	SOUTHB16	43	DERMATITIS	14
<u>Description:</u> (Intact female) 1 YRS 1 MTHS, BRINDLE / WHITE, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> NEGATIVE						

Eval. Notes:

**BEHAVIOR NOTE:** Approaching kennel, dog comes to me with a wiggly body and starts to slightly jump on the kennel door but stops after seeing the leash. She then waits to be leashed patiently by the kennel door and comes out of kennel with a wiggly body and a wagging tail. She slightly pulls on the leash but is treat-motivated enough to redirect her focus by offering treats. Once In the runs, she immoderately starts running back and forth and play bowing at other dogs. After I come back for her, she is still playing with neighboring dogs but does come up to me when I catch her attention. After I leash her she walks with a loose body and a relaxed mouth, and also takes treats readily on the way back to her kennel. Once in her kennel, she goes in to take a sip of her water and then looks back at me with a soft smile. 07/03/22 11:23

<u>Description:</u> (Intact female) 3 YRS, BLACK / WHITE, STAFFORDSHIRE / SIBERIAN HUSKY DOG						
<u>Heartworm Status:</u> HIGH POSITIVE						

Eval. Notes:

**BEHAVIOR NOTE:** Miska was sitting with her head down looking at the ground when I approached. Once she noticed me she turned to look up at me and her tail was thumping against the ground. I tied Miska to the wall while I cleaned her kennel; she was seated leaning against the wall and her tail would thump each time I turned towards her/walked next to her; I patted her head each time I passed and she lifted her head to press against my hand, squinty eyes and soft face. After cleaning I leashed Miska and she walked out on her own, tail up and swaying, relaxed body, loose open mouth, floppy ears. However, once we neared the door she pancaked and her tail was tucked completely. I let the leash go slack and let Miska go where she wanted, which was down the row. As I walked her last everyone else on the row was quietly sleeping or calmly sniffing Miska through the bars of the door and she was relaxed again, sniff greeting everyone else through the bars. She walked around the entire room and then reentered her kennel on her own. In the PM I leashed again and tried to take her out; she pancaked at the door. I carried Miska out and set her down outside. She was very low to the ground and tail tightly tucked, pressing against crack of door. I opened the door and she scurried back inside. Once in row she relaxed and went to her kennel (but did stop to greet Dale (A1825875)) 7/6/22

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1825875	DALE	6/15/2022	SOUTHB22	55	HEARTWORMS	24
<u>Description:</u> (Intact male) 3 YRS, TAN / WHITE, STAFFORDSHIRE MIX DOG						
<u>Heartworm Status:</u> LOW POSITIVE						

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** Approaching kennel, dog comes to me with a wagging tail and back ears. Once leashed, Dale quickly rushes out of kennel and then sniffs around when getting out of row to mark his territory several times before entering a run. Noticed that he also pulled on the leash but did accept some treats being offered to redirect his attention. Once in the run,. dog sniffed other neighboring dogs and did his business. After I came back for him, he waited for me in front of the run with a wagging tail and after I leashed him, he walked with a high tail and still pulled on the leash. This time he did slow down after being offered treats. Once near his kennel, he rushes to get inside and take a sip of his water. Covered kennel door 07/04/22 12:26

A1825789	MAX	6/19/2022	SOUTHC03	44	DERMATITIS	25

Description: (Neutered male) 1 YRS, BLACK / WHITE, LABRADOR RETR MIX DOG

Heartworm Status: NAD

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** When approaching kenne; max has a wiggly body with a soft open mouth. offered treats which he accepted and I was able to leash him. Walking him to the outside run, his behavior has improved. He is much more relaxed and is no crouching down. He walked on tight leash but was able to redirect using treats. Once in the run he did have zoomies and play bowed to tthe dog in the neighboring run. When taking him out of the run he will get jumpy but can also re directed using treats. Behavior is the same in the kennel but can get vocal if the other dogs around him get vocal.

A1828906	MAXI	7/1/2022	SOUTHC05	38.2	HEARTWORMS	8

Description: (Intact female) 3 YRS, BROWN, BOXER MIX DOG

Heartworm Status: HIGH POSITIVE

Eval. Notes:

**BEHAVIOR NOTE:** When approaching kennel Maxi has a relaxed body with neutral ears and eyes, and soft closed mouth. I offer treats that she accepts and I leash her. Walks on a loose leash with tail wagging, and bouncy ears. I suspect that Maxi is beginning to bark and lung at kennel door when customers walk past. I will observe her throughout the day to make sure then I will put her on adopt eval and cover her kennel door.

<u>Description:</u> (Intact female) 2 YRS, BRINDLE, DACHSHUND MIX DOG						
<u>Heartworm Status:</u> LOW POSITIVE						

Eval. Notes:

**BEHAVIOR NOTE:** Tail wagging. Was not bothered by my company and was easy to walk on the leash. And accepted treats!

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
A1826094	RALLY	6/16/2022	SOUTH21	70	NORMAL	23

Description: (Neutered male) 4 YRS, BLACK, AMERICAN STAFF MIX DOG

Heartworm Status: NEGATIVE/NAD

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** Loudly vocalizing and standing up on kennel door when other dogs passed by. When I approached Rally to be taken out, he wiggled his lower bottom and returned to the floor. Once out on the leash, he did small zoomies and spun in a circle. I did not walk forward until he was calmer. He walked quickly on the leash, tail wagging and ears flopping. He would occasionally stop to try and sniff the dogs that he passed before quickly walking forward again.

<u>Heartworm Status:</u> Not tested						

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** Pumpkin was sitting on her side with relaxed face, tail thumping against the floor when I approached. Walked very well on loose leash with frequent stops to sniff other dogs down the row. In run she sat at the gate and started screaming, no breaks except for when Rally (A1826094) approached on leash to sniff her through fence. Once back inside kennel she also began screaming at dogs after her in row passing by. I threw treats on her bed and closed guillotine and she was quiet for the rest of the AM walk.

<u>Description:</u> <b>(Intact male) 3 YRS, BRINDLE, STAFFORDSHIRE MIX DOG</b>						
<u>Heartworm Status:</u> LOW POSITIVE						

**PURRFURRED**

Eval. Notes:

**BEHAVIOR NOTE:** Tiger walked very well on loose leash out to runs. He sniffed around but did not potty, stood at gate waiting to be let in. Walked on loose leash back inside.

<u>Animal ID</u>	<u>Name</u>	<u>DueOut Date</u>	<u>Kennel No</u>	<u>Weight</u>	<u>Condition</u>	<u>Days in Shelter</u>
<b>A1827243</b>	<b>FARRAH</b>	<b>6/26/2022</b>	<b>SOUTH18</b>	<b>40</b>	<b>EYE</b>	<b>14</b>
<u>Description:</u> <b>(Intact female) 1 YRS, WHITE / BROWN, POINTER MIX DOG</b>						
<u>Heartworm Status:</u> <b>NEGATIVE</b>						

Eval. Notes:

**BEHAVIOR NOTE:** When approaching kennel Farrah has a wiggly body with tappy feet, wagging tail, and soft open mouth. She jumps on the kennel door but I offered her treats and was able to leash her. Very excited when out of kennel and will run around you, trail of treats work in getting her to walk in a more straight path. Does get vocal if she sees other dogs around her.

While walking another dog into the row (A1825903) which is a very high energy dog, the other dg was jumping and sniffing the other kennel doors. Farrah began barking and lunged at the kennel door. Will put on adopt eval and monitor behavior.
