3.0 BACKGROUND:

- 3.1 The City of Houston ("City") invites General Contractors who are qualified and otherwise capable of serving as "General Contractors" for "Housing Reconstruction" contracts to submit their proposal to perform services in connection with the reconstructing of single-family homes that were damaged or destroyed as a result of Hurricane Ike.
- 3.2 This effort will be carried out through a program organized and administered by the HCDD Director of the City of Houston, Housing and Community Development Department ("Housing Director"). Single-family houses being reconstructed under this initiative are those damaged or destroyed during the United States President declared, "Major Disaster Hurricane Ike (FEMA-DR-1791)".
- 3.3 Effective July 1, 2011, the CDBG Disaster Recovery Programs administered and funded through the State of Texas Department of Housing and Community Affairs (TDHCA) was transferred to the State of Texas General Land Office (GLO). GLO will oversee the administration and funding of this project through the contract previously entered into by and between the City of Houston ("City") and the Texas Department of Housing and Community Affairs (TDHCA). The project work consists of the demolition and reconstruction of certain owner occupied, single-family dwellings.
- 3.4 The City expects to award up to Forty (40) Housing Reconstruction Contracts from Community Development Block Grant ("CDBG") Round One Disaster Recovery funds awarded to the State of Texas and allocated to the City. The (40) contracts will be awarded, contingent upon the on-going funding and approval of the Round One Disaster Recovery programs authorized by the State of Texas.
- 3.5 "The Work" under this initiative requires the reconstruction of single-family, occupied dwellings (houses), owned by qualifying low and moderate income households. Once reconstructed, the covered houses shall meet all Federal, State, and local jurisdictional requirements and applicable environmental laws and regulations.
- 3.6 The "Work Geographic Area" includes only, the incorporated areas in the City of Houston, largely located within Harris County, and includes certain areas within Fort Bend and Montgomery Counties where Homeowners pay taxes to the City.
- 3.7 The selected General Contractors must oversee demolition work needed in connection with these Housing Reconstruction activities and will be responsible for ensuring the performance of any and all appropriate lead based paint hazard and/ or asbestos hazard testing and will be responsible for ensuring the legal containment, abatement and/or removal of lead paint hazards and/ or asbestos hazard materials as conditions may require at any individual property address covered under this RFP, as necessary.
- 3.8 Selected General Contractors submitting proposals for Housing Reconstruction activities may also be responsible for construction of off-street parking, and any additional construction services requested by the City.

SPECIFICATIONS / SCOPE OF WORK

SOLICITATION NO.: T24036

4.0 **OBJECTIVE:**

- 4.1 This Request for Proposals (“RFP”) is designed to establish a procurement vehicle pursuant to which the City may select a General Contractor and or General Contractors responding to this RFP who may be deemed most responsive and responsible and otherwise qualified and capable of being awarded Reconstruction Contracts and serving as a Housing Reconstruction Contractor. After conclusion of the evaluations, and any necessary negotiations regarding a “Contract Price” for each and every contract awarded under this RFP, the highest ranked General Contractor will be recommended by the HCDD Director to City Council for contract award for the specific projects pertaining to this RFP.
- 4.2 The City intends to offer up to forty (40) Reconstruction Contracts under the Round One Program. However, under this specific RFP, thirty three (33) Housing Reconstruction contracts are offered for bid for single-family, owner-occupied houses identified in SECTION 5.0 (presented immediately below).
- 4.3 The housing reconstruction scope of work will in each instance, require that the successful General Contractors to enter into thirty three (33) individual contracts providing for both the demolition (including all debris removal of the existing damaged house) and the construction of a new single-family house on the existing property site. This service activity is herein and after referred to as “Housing Reconstruction”.
- 4.4 General Contractors submitting proposals should understand and take into consideration that the program could increase to serve additional damaged houses in the affected areas; could be expanded to include other housing reconstruction programs administered by the City; and that the total number of housing reconstruction contracts could be increased beyond the forty (40) presently contemplated.

5.0 **SCOPE OF SERVICES:**

- 5.1 Under this RFP, “Housing Reconstruction” is defined as a diverse scope of work needed to both demolish and clear away the debris of the existing hurricane damaged house; and (incorporated under a single contract) to construct a new single-family house for the property owner (roughly, comparable in size to the demolished house) on the property-owners property site.
- 5.1.1 Demolition and clearance work shall be carried out in compliance with all local, state and federal statutes and regulations governing such work.
- 5.2 The new single-family home will be constructed in compliance with all local, state and federal statutes governing such work and the new home will be constructed to standards necessary to comply with City of Houston local building code standards, HUD Housing Quality Standards (HQS), and as applicable, with Uniform Federal Accessibility Standards.
- 5.3 Under this RFP, the General Contractors may choose to submit proposals for the housing reconstruction work. The City will evaluate the submitted proposals and make a determination as to who is the most highly ranked reconstruction General Contractors that satisfies the criteria for housing reconstruction contract(s).
- 5.4 The scope of work consists of the demolition, site clean-up and reconstruction of the following single family dwellings:

 - The employee contribution, if any amount, will be no greater than 50% of the total monthly premium cost.
4. Subcontracts: The Prime Contractor is responsible for compliance on behalf of covered employees, including Contract labor, of subcontractors with subcontracts valued at or greater than \$200,000, if the Subcontract is not primarily for the procurement of property, goods, supplies or equipment. Subcontractor compliance includes submission of applicable reports and/or payments to the Prime, as well as maintenance of records.
