

CERTIFICATE OF APPROPRIATENESS

Application Date: August 5, 2015

Applicant: Stephen Scholl, owner

Property: 849 Harvard Street Apt A, Tract A, Block 247, + 288 Sq Ft Common Element Harvard Heights T/H Houston Heights Subdivision. The property includes a 1,696 square foot two story townhome on a 1,650 square foot (50' x 33') corner lot.

Significance: Noncontributing Townhome residence, constructed circa 1983, located in the Houston Heights Historic District South.

Proposal: Alteration – Replace Siding and Trim

- Replace existing 117 Wood siding with 5” smooth finish cementitious siding.
- Replace existing wood window trim with cementitious trim.
- Install metal vertical board and batten accents.

See enclosed application materials and detailed project description on p. 4-9 for further details.

Public Comment: One expressing no objection. See Attachment A.

Civic Association: No comment received.

Recommendation: Approval

HAHC Action: -

APPROVAL CRITERIA

ALTERATIONS TO NONCONTRIBUTING STRUCTURES

Sec. 33-241(c): HAHC shall issue a certificate of appropriateness for the alteration, rehabilitation, restoration or addition of an exterior feature of any **noncontributing structure in an historic district** upon finding that the application satisfies the following criteria, as applicable:

S D NA

S - satisfies D - does not satisfy NA - not applicable

- (1) The proposed activity must recognize the building, structure, object or site as a product of its own time and avoid alterations that seek to create an earlier or later appearance
- (2) For an addition to a noncontributing structure:
 - (a) The setback of the addition is no closer to the public right-of-way than the typical setback of existing contributing structures in the historic district;
 - (b) The height of the eaves of the addition to a noncontributing structure used or intended for use for residential purposes is not taller than the typical height of the eaves of existing contributing structures used for residential purposes in the historic district; and
 - (c) The height of an addition to a noncontributing structure used or intended for use for commercial purposes is not taller than the height of the existing structure.

PROJECT DETAILS

- Exterior Materials:** Replace most of the existing wood 117 horizontal lap siding with 5" horizontal lap siding with metal board and batten accents. Some of the existing siding will be retained on the first floor. All existing wood window and door trim will be replaced with matching 6" wide cementitious material.
- Front Elevation:** Replace the existing siding on the first floor between the existing window and the north facing exterior wall with cementitious siding. The existing siding between the window and Unit B (adjoining residence to the south) will be retained. The new and old siding will be separated by a piece of horizontal cementitious trim. The second floor will feature new cementitious siding and board and batten accents below the existing soffits.
- Side Elevation:** Replace all of the existing siding with cementitious siding on the first and second floors. The proposed gable siding will consist of vertical board and batten siding.
- Side Elevation:** Replace most of the existing siding with cementitious siding. The existing wood siding around the first floor pedestrian door will be retained. Board and batten accents will be added above a row of existing first floor windows and along the second floor soffits.
