

## GO Green with Light Rail

Se los llevo el tren

Worried about mom and pop businesses going out of business or being displaced. Moody Park is very active. Children crossing Fulton need better pedestrian walks. Preserve the trees along the transit line.

April 18-19

## New life in North Corridor

### METRO unifies North Corridor

Concerns with future traffic on Irvington. Connect Moody Park to Irvington Park with bike trail. If possible maintain the bike path along Fulton. All the sidewalks that lead to Main Street are in poor shape. Concerns about high end residential development that might displace some of the residents.

### Billionth rider boards METRO rail on the North Corridor

It would be nice to have pocket parks along the corridor. Northline Mall will probably become a major shopping destination. Gentrification is a very big issue especially at the Cavalcade and Interstate 45 North Freeway stop. Would like to see trails along White Oak Bayou.

### Business is Booming, North residents pleased

### BRT out LRT in!

Lots of trees are needed to provide shade along the corridor, and extra lighting is needed as well to provide additional safety. Need areas to park and leave our cars when traveling to downtown.

North Corridor
