GENERAL FUND EXPENDITURES/OTHER USES FY2016 BUDGET

Total=\$2,391,253,131

OVERVIEW

The largest single category of expenditures and other uses in FY2016 is Public Safety with (56.81%) of the total, followed by Debt Service (14.47%), Human and Cultural Services (7.75%), General Government (8.65%), Development and Maintenance Services (6.76%), and Administrative Services (5.56%).

The General Fund is dominated by public safety costs. While the public safety category makes up a majority of the total costs, it is important to note that other expenditure categories such as debt, general government, maintenance, and administrative services provide support for public safety activities. Those public safety activities could not operate without that support. Further, it is widely recognized that many of the human and cultural services the city provides indirectly reduce crime by actively engaging at-risk groups. In many ways those services are public safety costs as well.

The following graph compares the FY2015 Estimate and FY2016 Budget by functional category. Please refer to the tables at the end of this section for comparisons among departments.
