Nationally, Blessings in a Backpack provides meals for more than 83,000 children, 900 schools, in 46 U.S. states and the District of Columbia. Ms. Sharon Vance, 8415 Cabot St., 77078, (832)964-4388 appeared and stated that she was present with a grievance with a Police Officer that is with HPD, she was involved in an accident on May 7th, she was rear ended, a statement was never taken from her nor she did not ask for any witnesses which she did have two, she called the station twice and she went to the station and met with them asked about the Officer that left the citation with her son-in-law, the ambulance took her but she was at the scene long enough but this Officer she never saw him, when he came from behind the doors and advised that it was not him and they told her that it was him and she told him that he never asked for a statement from her, she had called him and what he did to her was a problem, he put a citation in the report; when she went to Court the Judge asked her why was she here and she told him that she got rear ended, she brought pictures and she had the report, she finally went and spoke to the Officer and he was very insensitive, dry, he was very opinionated and showed her a picture of the guy that hit her, she feels that everyone speaks about this crime on Black on Black crime well the Officer was Black Officer, she does have Officers in her family and all she wanted was justice on the guy that hit her and she believes that she cannot get anything done because of the citation that was in the report and she came to seek justice because this guy was able to give a statement and she was not, she came here to see if Members of Council can advise her on how to move forward with this because no one wants to touch her because of the citation, she was rear ended and she has witnesses and this Officer was very unprofessional. Mayor Turner, Council Members Martin and Knox absent. Mayor Pro Tem Cohen presiding.

Ms. Emily Haines, 106 Cosmos St., 77009, (281)615-9592 appeared and stated she lives with her spouse, her mother and her two young sons and she was present today to address the ongoing issues with the White Oak Music Hall development in the near North side of the neighborhood, she knows that she and the nearby residents were relieved and grateful to hear the Mayors personal assurances last week, that HPD would be directed to enforce the Noise Ordinance that has been appearing to be happening in the last 6 days and the White Oak Music hall had been issued 2 criminal citations for Noise Ordinance violation and again thank you for hearing their concern and they hope that enforcement will continue; she was also encouraged last week when she read the Mayor's comments in the Houston Chronicle on the topic of the temporary permit of the White Oak Music Hall outdoor stage or the lawn as the vendor calls it, he made it very clear that the temporary permit that originally allowed for the outdoor stage would expire in early October regardless of the developer insistence that they could just tear down the stage and make a new one to receive another temporary permit, they agree with the Administration position that the developers must obtain and have in hand have a permanent permit with all the requirements and approvals that come with it before they are able to operate the outdoor stage, they appreciate all the support on this, however, she and her neighbors were increasingly concerned at the suggestion by some that the residents need to reach some type of compromise with the developers, to the Mayor and City Council Members, she says meeting the minimum standard of the City Code should not be open for compromise and should not be a negotiation, not on the part of the City or neighbors, bending the rules for developers was not the solution, there had been a host of broken promises, code violations and misrepresentation on the plans that were submitted to the City for the outdoor stage, that includes the parking violations, the noise ordinance and structural requirements, they were not anti-development or anti-music and they were willing to meet half way when only when minimum standards had been met. Mayor Turner, Council Members Boykins, Martin, Green and Knox absent. Mayor Pro Tem Cohen presiding.

Members of Council questioned Ms. Haines at length.

Ms. Glenola Hines, 4463 N. MacGregor Way, No.120, 77004, (713)384-1903 had reserved time to speak but was not present when her name was called. Mayor Turner, Council Members Boykins, Martin, Green and Knox absent. Mayor Pro Tem Cohen presiding.

Ms. Janet Copestake, 1537 Castle Court, No.1, 77006, (832)468-1301 appeared and stated that she was here to talk to them about the North Dakota access pipeline which Energy Transfer Partners whose offices is a couple blocks away from here that were involved in trying to lay a pipeline under the Missouri River and the Missouri River is a major tributary to the Mississippi River, so if that river is polluted it comes on down to the Mississippi River to the Gulf, in the commission of this work, treaties with the indigenous sovereign people have been ignored and the pipeline company had proceeded with work before the permits were awarded, destroying sacred, historical sites as they do this work, ill trained dogs and dog handlers and peppers spray were used against peaceful protesters, the media, local and National were trying to ignore what was happening and when they were not able to ignore this any longer, they started excusing the First Nation People of violence; the First Nation People of Standing Rock had been totally peaceful in protection of their water, pipes leaking whether oil or water pipes and if they keep laying pipes all over this Country, we will soon have contaminated every little bit of clear water and our bodies are about 60% water, people can live without food for weeks but people can only live without water for couple of days, people cannot drink oil, people cannot eat oil, people cannot eat money, this great City had been built on oil but that does not mean that the City does not have to continue on the same path forever, there are many alternatives now and many ways that the City could have businesses through alternative energy and still have money, she was asking Members of Council to be brave, to make a statement that they stand with the indigenous sovereign people of Standing Rock and all those people that were present there to support them, there were over 100 groups of indigenous sovereign people from Alaska, Hawaii, Canada, Mexico and all corners of this Nation and all corners of this Earth were hearing about what they were doing with the North Dakota access pipeline and asked them again to make a statement that they were in support of indigenous sovereign people and water is life. Mayor Turner, Council Members Martin and Knox absent. Mayor Pro Tem Cohen presiding.

Ms. Emily Garcia, 19531 Quiet Brook, 77084, (832)340-6114 appeared and stated that she was 22 years old and she was present representing the students of the University of Houston and those who will inherit this Earth and whose children and grandchildren live here long after they were gone, she has not lived one quarter of her life that she hopes to live but yet everyday she was plagued by the thought of what this world would be in the next 5 years and the rest of her life, we were living in the brilliant, modern, technological 21st Century when it comes to survival, there was no obstacles that human species can overcome, the biggest problem facing all of us on this planet was one we have not even begun to tack full force when it comes to nature and other species, they were hindered by those who benefit from the exploitation of our Earth and all their resources, they were hindered by their greed that had no morale limits when it comes to the means of their ends, everyday corporations were digging up soil and releasing vast toxic chemicals into the air, polluting the water, hunting their fish, slaughtering animals and the list goes on and on; the main stream media is silent on all these atrocities these corporations were submitting and today they speak for the people and what they were trying to protect which was essential to our survival, 55% of our blood is water, it what carries in our veins that allow our organs to carry out their functions, humans are 60% water and our brains 70% so when the main stream media is silent on something that can danger the water supply for millions they know just how strong big oil is and when these corporations that where the wealthy benefit from these individuals that were making decisions and continue to

fight with the people in North Dakota who fight to protect what gives them life, they know how ruthless those millionaires are and their motivation was money and they were here to say that they would not stand by and watch as they dig up scared land just for their profit because they know the power of the people were stronger and the blue print for success had been laid out before them thanks to the brave and peaceful protesters from our past and they know with their might they can hold these corporations accountable for the damages that they have done and they need their local leaders addressing these issues in North Dakota when the general public relays to the main stream media. Mayor Turner, Council Members Davis, Martin, Travis, Laster and Knox absent. Mayor Pro Tem Cohen presiding.

Members of Council questioned Ms. Garcia.

Mr. Oscar Gonzalez, 4002 Chartres St., 77004, (832)526-7618 appeared and stated that he stands here not only as a citizen of the Bayou City but also a representative of the Sacred Stone Spirit Camp in the Cannonball North Dakota on the Standing Rock Reservation, since August 11, 2016 the situation at Standing Rock has gotten worse and the gathering of people have grown from a mere handful individuals to a most historical happening, the 7 Bands of the Dakota people had not gathered together in over 150 years since the days of the great Sitting Bull; today over 7,000 people sit in unite in protest of the Dakota access pipeline, a project that was spearheaded by Energy Transfer Partner who have an Office on Main Street Downtown, on September 3, 2016 the Energy Transfer Partner deployed pepper spray and dogs on the peaceful protestors that stand to defend the land and they threaten the life of the 158 million year old Missouri River that provides life for not only to 10 million humans downstream but also to thousands of species of animals and plants; despite the many live recordings of individuals at the site of the conflict and journalist that were present and not main stream media across the Nation chose not to report of the happening on September 3, 2016 in a negative manner, a report that was in Houston reported that Officers over there say that the protestors got to aggressive and their actions got out of hand, this was the message reported by KHOU for the reason why the pepper spray and the aggressive dogs were used but there was not statement for one of the protestors, not a statement from the Government Officials or any other leadership; what he asked from our Elected Officials was to grant exposure to what was really happening in North Dakota in order to inform the citizens of this great City as to the events that were happening in Standing Rock and he wanted them to know that they were organized, persistent and are dedicated to their brothers and sisters until the very end, they have peacefully marched on 1300 Main and KHOU and will march on any entity which chooses not to hear them or stands with the corporation, will they stand with Standing Rock or will they stand with the old devils. topics to the forefront so the citizens of Houston and for Texans decide on which side they want to stand, she loves this City and request City Council for more visibility and awareness on this topic to make sure that nutritional water, pure, clean water was available for people. Mayor Turner, Council Members Stardig, Cohen, Boykins, Martin, Le and Travis absent. Vice Mayor Pro Tem Davis presiding.

Mayor Turner, Council Members Stardig, Cohen, Martin, Travis, Laster and Green absent. Vice Mayor Pro Tem Davis presiding.

Mayor Turner stated on July 1st, the start of the first physical year in his Administration, he had instructed his Office to tie Service Request to Service Level Agreements to performance and prior to his Administration the level of Service Request Agreements were chosen by the Department and had largely remained unchanged since their inceptions and he works closely with them to focus on moving information towards performance based budgeting, it was only logical that his Departments have Service Request Agreements the latest to reflect their performance and not a number that they had chosen; this reassessments of Service Request Agreements will ensure the citizens and Elected Officials of the City are able to accurately engage the productivity of the Departments the views of

transparency and accountability; he requested HTV to show along the bottom of the screen during Council Meeting sessions the top ten Service Request in volume and what he intend of conveying to the public the average closer time and whether increase and decrease from the month before and he had made it clear to the public as well as the Council Members that he would hold accountability to the public to the highest regard and requested the Director of the Department to continue improve their operations.
