

HPD Mobile Data Computer (MDC) Refresh TTI Presentation

Date: March 2, 2023

Mike Bell, HPD CTO
Assistant Chief Wyatt Martin

HPD MDC Refresh History

- HPD has approximately 1,800 ruggedized laptops in patrol vehicles
- Approximately 55% are 10 years or older
- These older units are failing at a high rate
- Failures result in officers being taken out of the call for service loop to have unit repairs or replaced

HPD Mobile Data Computer (MDC) Refresh

- HPD plans to replace 554 Mobile Data Computers installed in the police patrol vehicles
- Funding is from the CIP and appropriated
- Project will replace the oldest (10+ year old) units first
- Remaining older units will be replaced in the following year (FY24) using approved CIP funds
- This gets the MDC refresh on a 5-year cycle

NEXT STEP

Council Action for spending approval in March
