REQUEST FOR RELEASE OF FUNDS

On or about Monday, August 31, 2015 City of Houston’s Housing and Community Development Department, on behalf of the Houston Redevelopment Authority (Houston Housing Finance Corporation), will submit a request to the U.S. Department of Housing and Urban Development for the release of Community Development Block Grant (CDBG) funds authorized by Title I of the Housing and Community Development Act of 1974 (P.L. 93-383, as amended), to undertake a project known as, to undertake a project known as:

Project Title:  Houston Furniture Bank

Location: 8220 Mosley, Houston, Texas 77075

Purpose of project: This project will entail rehab work (renovations) to be performed on the existing, operating 75,000 square foot warehouse for the Houston Furniture Bank. The footprint of the building is not expanding. Also included in the scope of the project is the purchase of equipment to complement the renovation work to be performed and contribute to the effective operation of the warehouse. This renovation, including the equipment, is being performed with the goal of expanding the Houston Furniture Bank’s services to serve 500 families a month.

Since testing indicated lead and asbestos are present in the building, this project is conditioned on the proper mitigation of these two substances according to all applicable federal, state, and local requirements if they are disturbed at all. Language requiring the proper mitigation of lead and asbestos must be included in the contract as well.

Per reports containing the tests performed on this property, any and all lead paint on surfaces must be properly encased, encapsulated, or remediated. If any older exterior metal components identified in the report are not remediated, a lead based paint Operations & Maintenance (O & M) Plan should be put into place.

The report cites HUD Guidelines governing lead paint which can be found at:

Section 1017 of the Residential Lead-Based Paint Hazard Reduction Act of 1992, (part of Title X of the Housing and Community Development Act of 1992) (Public Law 102-550) and HUD Guidelines enacted pursuant to this Act, including Chapter 6 which governs ongoing maintenance.
Disclosure and other requirements for lead paint found at 24 CFR 35 and 40 CFR Part 745 must also be followed, as per the second edition (July 2012) of the *HUD Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing*. If any suspect lead based paint hazards not noted during the inspection are found, they should be sampled for lead and handled appropriately according to all federal, state, and local rules and regulations that apply.

Key regulations to be followed include the Texas Asbestos Health Protection Rules (TAHPR) and the National Emission Standards for Hazardous Air Pollutants (NESHAP), found at 40 CFR 61. Any and all asbestos containing building materials (ACBMs) and/or suspected ACBMs that will be disturbed need to be removed by a licensed abatement contractor, and, if applicable, a licensed asbestos consultant. Contractors also need to follow all applicable EPA, OSHA, and Texas Department of State Health Services (TDSHS) requirements.

Failure to follow mitigation and contractual requirements regarding lead and asbestos subjects this project to potential HUD penalties, including but not limited to the payback of federal funds.

Grant No. & Amount:  
B-10-MC-48-0018..............$700,000.00;  
B-12- MC-48-0018..............$1,505,000.00
