The City of Houston Planning and Development Department estimates that as of January 2008, Houston had a population of 2,229,199 residents. Over fifty-three percent of Houstonians are low to moderate-income (LMI) residents, with a majority being minorities. The supply of affordable housing has become an issue in recent years. Rental rates and purchase prices have increased rapidly, therefore limiting LMI resident&rsquos ability to afford housing. The supply of affordable housing, coupled with sub-prime lending practices, lender credit restrictions and increased tax delinquencies, has destabilized many neighborhoods. As of March 2008, a total of 7,584 properties were foreclosed by lenders and municipalities, of which 758 properties are REO&rsquos. Furthermore, recent hurricanes (Katrina, Rita, and Ike) have adversely impacted the supply of affordable houses in the Houston area by severely damaging current dwelling units, displacing citizens, and welcoming residents from nearby counties and states.
