

HURRICANE SEASON IS HERE.

Let's make sure **EVERYONE** is prepared.

The Housing and Community Development Department is working to better equip our community with hurricane preparedness information. We are looking to partner with local nonprofits to organize and execute community outreach programs that will effectively reach historically underserved populations and share important resilience information.

Programming should take place at the neighborhood level and increase awareness about several topics:

- What to do to prepare for a hurricane
- What to do in the immediate aftermath of a disaster
- What resources are available to residents impacted by flooding
- Fair housing resources and information

With your help, we can better prepare our City's residents for hurricane season.
