1505 Tulane Street
Houston Heights West

Applicant: Justin Patterson, agent for Paul Griffin, owner

Property: 1505 Tulane Street, Lots 16 & 17 Block 145. The property is a 2,192 square foot one-story wood single-family residence situated on a 8,799 square (66.66' x 132') foot interior lot.

Significance: Contributing Craftsman property constructed circa 1930, located in the Houston Heights West Historic District.

Proposal: New Construction – Garage

- Deferred from the September Commission meeting.
- Demolition of a one-story, non-contributing accessory structure.
- Construction of a detached two-story, two-car garage and shop with a 649 sq ft second-floor apartment.
- First-floor footprint is 680 sq ft, with 528 sq ft exempt from lot coverage due to detached configuration and breezeway connection.
- Garage to feature horizontal lap Hardie siding (8" exposure) and a composition-shingle 6/12 hipped roof.
- Roof heights: 24'-9 1/8" ridge and 18'-10 5/8" eave.
- Includes a covered, unconditioned breezeway with a sheltered exterior stair.
- All new windows will be wood, inset, and recessed.

Public Comment: One comment in opposition received.

Civic Association: No comment received.

Recommendation: Approval

APPROVAL CRITERIA

NEW CONSTRUCTION IN A HISTORIC DISTRICT

Sec. 33-242: HAHC shall issue a certificate of appropriateness for new construction in a historic district upon finding that the application satisfies the following criteria:

S D NA

S - satisfies D - does not satisfy NA - not applicable

- | | | | |
|-------------------------------------|--------------------------|--------------------------|---|
| ☒ | ☐ | ☐ | (1) The distance from the property line of the front and side walls, porches, and exterior features of any proposed new construction must be compatible with the distance from the property line of similar elements of existing contributing structures in the context area; |
| ☒ | ☐ | ☐ | (2) The exterior features of the new construction must be compatible with the exterior features of existing contributing structures in the context area; |
| ☒ | ☐ | ☐ | (3) The scale and proportions of the new construction, including the relationship of the width and roofline, overall height, eave height, foundation height, porch height, roof shape, and roof pitch, and other dimensions to each other, must be compatible with the typical scale and proportions of existing contributing structures in the context area unless special circumstances, such as an atypical use, location, or lot size, warrant an atypical scale and proportions; and objects in the historic district; |
| ☒ | ☐ | ☐ | (4) The height of the new construction must not be taller than the typical height of existing contributing structures in the context area unless special circumstances, such as an atypical use, location, or lot size, warrant an atypical height, except that:

(a) Design guidelines for an individual historic district may provide that a new construction with two stories may be constructed in a context area with only one-story contributing structures as long as the first story of the new construction has proportions compatible with the contributing structures in the context area, and the second story has similar proportions to the first story; and

(b) A new construction shall not be constructed with more than one story in a historic district that is comprised entirely of one-story contributing structures, except as provided for in design guidelines for an individual historic district. |
